## How to Use the Google Slide Postcard Template

1. Make a copy of the template by going to **File > Make a copy > Entire presentation**. Now you can start editing the copy to personalize the information for your company.
2. **IMPORTANT!** Do not resize or move the text boxes. Do not add any images or content in the empty space of the template. The blank area is reserved for mailing addresses, postage and barcodes used by the USPS.
3. Replace the placeholder text with your company's name and contact information.
4. Once you have added your information you can export the slide as a PDF by going to **File > Download > PDF Document (.pdf)**. Take your newly downloaded PDF and upload it as the back of the postcard to the printing service of your choice. Be sure to select a horizontal 4x6 postcard as the size when ordering.
